Guidelines for making a QuWave video testimonial

Have fun and just speak authentically and tell us why you like our product and how it has helped you. Please be specific and keep it real. The fact that you take the time to do this means a lot to us.

PLEASE DO NOT POST YOUR VIDEOS ON YOUTUBE!!! or other online sites

Start with a story of your problems and how our product has helped you. The more detail there is the more believable it will be to viewers. You could start with, "I used to have trouble with...." Viewers will be able to tell if it's genuine or not real. Be sure that all the things said are true. Keep it simple and easy!

Here are some specific guidelines:

1. Include your first name, and your state/city at the beginning of your video to make it more personal.
2. Say what your trouble was and what the product did for you and why you like it.
3. Make sure the lighting is sufficient & especially please make sure the sound is audible without distractions.
4. If submitting multiple testimonial videos, please try to make them look different. For each one, try to: use someone else in your video, wear something different, change the background, or describe another symptom.
5. You can use any video format that your camera generates (we will take care of any conversions).
6. The video should be 30-120 seconds in length. Do not worry if you make mistakes, we will edit the video. If you make a few attempts, just send us all of them, we will edit the best parts.
7. Make sure you mention the name of the product in the video: "QuWave Harmonizer", or "QuWave Energizer", etc., depending on which model you have.
8. Make sure you hold the product up to the camera so it is in the video.
9. Please send the video files to us via email to Info@QuWave.com.

10. PLEASE DO NOT POST THE VIDEOS ON YOUTUBE!!! or other online video sites
